

Smartrac Dogbone U8 RFID Label

Heavy-duty UHF RFID label with NXP UCODE 8 for automotive, sports timing and industrial tracking on difficult materials.

RFID SPECIFICATION

|                     |                                      |
|---------------------|--------------------------------------|
| Chip                | NXP UCODE 8                          |
| Protocol            | ISO 18000-6C, EPC Class 1 Gen 2      |
| Operating Frequency | 860–960 MHz                          |
| EPC Memory          | 128-bit                              |
| TID Memory          | 96-bit (48-bit unique serial number) |

PHYSICAL SPECIFICATION

|                    |                   |
|--------------------|-------------------|
| Antenna Dimensions | 94 × 24 mm        |
| Die-Cut Dimension  | 97 × 27 mm        |
| Inlay Substrate    | PET               |
| Face Sheet         | Opaque Matt Paper |
| Standard Pitch     | 30 mm             |
| Web Width          | 100 mm            |
| Core Size          | 76 mm             |

ENVIRONMENTAL RESISTANCE

|                       |                 |
|-----------------------|-----------------|
| Operating Temperature | -40 °C to 85 °C |
|-----------------------|-----------------|

APPLICATIONS

|            |                                                                    |
|------------|--------------------------------------------------------------------|
| Industries | Automotive, Industrial, Sports & Events                            |
| Use Cases  | Sports timing, glass and automobile tracking, inventory management |

FEATURE HIGHLIGHTS

- Excellent performance on plastic, glass and high-dielectric materials
- 97 × 27 mm label on opaque matt paper
- ISO 18000-6C / EPC Class 1 Gen 2 — ISO 9001 & 14001 certified

PRODUCT GROUP
