

Confidex Carrier KLT RFID Label

HF 13.56 MHz RFID label specially designed for washable adhesive plastic surfaces, optimized for KLT small load carriers and returnable plastic containers in automotive and industrial supply chains.

RFID SPECIFICATION

Operating Frequency	13.56 MHz (HF)
Applicable Surfaces	Non-metal (plastic optimized)
Primary Application	KLT small load carriers, returnable plastic containers

PHYSICAL SPECIFICATION

Form Factor	Adhesive label
Material	Plastic
Delivery Format	Standard
Applicable Surfaces	Plastic, non-metal

APPLICATIONS

Primary Use	KLT small load carrier tracking
Industries	Automotive, industrial supply chain
Asset Types	KLT boxes, plastic dollies, returnable containers

FEATURE HIGHLIGHTS

- HF 13.56 MHz – designed for KLT and RTI container tracking
- Adhesive label format for plastic surfaces
- Optimized for automotive industry and returnable container logistics
- Suitable for plastic dollies, KLT boxes and load carriers
- Washable and reusable design
