

Altis Crafty Bold RFID PVC Label

107 × 31 mm UHF RFID PVC label optimized for RTI, PLP and KLT plastic transport assets. Provides read range up to 7 m, is fully GRAI, GTIN and SSCC encoding compliant, and supports customizable dual-sided full-color printing.

RFID SPECIFICATION

Protocol	EPC Gen2 Class 1 (ISO 18000-6C)
Encoding Compliance	GRAI, GTIN, SSCC
Operating Frequency	UHF 868 MHz (EU)
Chip Options	Impinj R6 / M730/750 / Alien H9 / UCode U8/U9
Read Range	Up to 7 m (fixed portal)
Surface	Non-metal / Plastic optimized

PHYSICAL SPECIFICATION

Label Size	107 × 31 mm (custom sizes available on demand)
Material	High-durability PVC
Form Factor	Adhesive label
Mounting	Surface adhesive or hidden inside asset
Printing	Dual-sided full color – logo, text, barcode, numbering
Certifications	CE, REACH, RoHS

APPLICATIONS

Primary Use	Returnable Transport Item (RTI) tracking
Asset Types	Plastic layer pads (PLP), small load carriers (KLT), containers
Industries	Automotive, white goods, logistics, supply chain

FEATURE HIGHLIGHTS

- Optimized for reusable plastic layer pads (PLP), returnable transport items (RTI) and small load carriers (KLT)
- GRAI, GTIN and SSCC memory block encoding compliant
- Read range up to 7 m – operates on large portals and wide dock gates
- Mountable on plastic surfaces or concealable inside assets
- Chip options: Impinj R6, M730/750, Alien H9, UCode U8/U9
- Customized dual-sided full color artwork and visual printing
- CE, REACH and RoHS certified
