

CAEN RFID Quattro (R4321P)

The Quattro (R4321P) is a compact long-range RAIN RFID reader from the easy2read product line, well suited for retail and warehousing installations. With four TNC-RP antenna ports, Ethernet (PoE), USB host port, and an embedded Linux platform with Java scripting support, it is a powerful and versatile identification platform.

RFID

Standard Compliance	RAIN RFID (UHF EPC Class1 Gen2, ISO 18000-63)
Antenna Connectors	Four 50 Ohm TNC-RP
RF Power	Up to 31.5 dBm (1.4 W) output power
Multiregional support	Operates in both European and US regulatory environments

PLATFORM & CONNECTIVITY

Operating System	Embedded Linux
Scripting	Internal Java scripting engine
Ethernet	PoE supported
USB	Host port for barcode scanners, keyboards, printers and more

APPLICATION AREAS

Typical use cases	RAIN RFID portals for logistics, Industrial automation reading points, RAIN RFID tunnels, Access control reading points, Smart shelves and smart displays
